

## We're GLAD to help

### The GP Liaison in Alcohol and other Drug Project is here to assist you with your patients.

GLAD is a collaboration with public Alcohol and other Drug (AoD) services in all three Local Health Districts within CESPHN: South East Sydney Local Health District (SESLHD); Sydney Local Health District (SLHD); and St Vincent's Health Network (SVNH).

Some drug and alcohol issues can be chronic and complex, and GPs may need specialist advice, support and referral options to assist patients with these issues. Our multidisciplinary team, made up of doctors and nurses very experienced in the management of alcohol and other drug problems, understands the challenges of managing people with complex multimorbidity. We're committed to assisting you help your patients to improve their health and wellbeing through:

- Advice, support and information
- Referral consultation clinic
- Education. We run CPD events with CESPHN (please see usual CESPHN educational updates for details). We are happy to visit you at your surgery and run training and/or information sessions for you and your colleagues.

All people 18 years and over, resident in CESPHN area with risky or hazardous substance use or substance use disorders are eligible to be seen in our services. For people under the age of 18, referrals will be referred on to the Youth Nurse Practitioner.
