

SYDNEY ROBOTICS MASTERCLASS 2019

Saturday 29 June

Royal Prince Alfred Hospital

This program includes a half day robotics seminar as well as robotic workshops for a number of surgical specialties.

The workshops will be utilising all surgical robots across the Royal Prince Alfred (RPA), Chris O'Brien Lifehouse and University of Sydney campus.

This will be the largest number of surgical robots being used at the same time in the southern hemisphere!

1 Robotic Workshops

The Robotic workshops are aimed at surgical registrars, fellows and consultants who are looking to develop robotic skills and techniques.

The specialty workshops for urology, cardiothoracic, colorectal and orthopedics will be utilising the da Vinci Xi, Mako and OmniBot surgical robotic systems.

*Contact us directly to register interest
Limited places available*

2 Robotics Seminar

The Robotic Seminar will be covering a variety of surgical robotics procedures, the future of robotics and robotic research programs.

07:30 – 1pm
Kerry Packer Education Centre Auditorium
Royal Prince Alfred Hospital

\$25 registration

Limited places available
