

Australian post-stroke health and well-being SURVEY

Dear GP, can you please assist in identifying stroke patients?

Our clinical researchers are gathering information on post-stroke health and well-being to:

- inform service planning and clinical trials
- address any unmet need
- seek national data on the experience of post-stroke fatigue & apathy

We invite you to please distribute this survey to your local community of stroke survivors

We're interested in hearing from stroke survivors who've had a:

Medically-diagnosed (Ischaemic) stroke

Survey weblink: <https://redcap.research.uts.edu.au/surveys/?s=TYLHXNMA8T>

or

CADASIL-related stroke

Survey weblink: <https://redcap.research.uts.edu.au/surveys/?s=JF98MM4KKX>

or

**Patient with CADASIL-related stroke
or their carer**

Participate in an interview. A **\$25 Gift Voucher** is offered as an honorarium. Please email participant name and contact number to poststrokestudy@uts.edu.au
